S4 Table. Cribsheet system used to compare the factor scores of each statement in factors 1 to 3.

## Factor 1

Statement	Highest ranked at +5	Factor 1	Factor 2	Factor 3
2	Another flood could affect me in the near future.	5	-3	-3
28	I have experienced damages on my home caused by floods.	5	5	1
51	Citizens should be involved in the decision-making concerning flood protection in the area.	5	4	5
	Lowest ranked at -5			
	There will most probably not occur a flood in the next 10 years in this			
31	community.	-5	-4	0
	Thanks to existing protection measures, there is no residual risk in this			
33	area.	-5	-3	0
35	In case of a flood, I can rely on the support by the government	-5	-3	-4
	Ranked higher in Factor 1 than in other factors			
7	Existing information about floods in this area is very difficult to understand.	-2	-5	-3
	Implementing watertight cellar windows is an effective measure to			
10	decrease the cost of damages on my home by a flood.	4	4	-2
15	I think that damages by floods could be decreased if there were less areas paved.	2	1	0
	If protective measures would be subsidized, more people would	2	1	U
17	implement these.	3	3	0
18	There are not more floods, there is just more reporting in the media.	-3	-4	-4
19	Flooding is not as big of a problem, as the media makes of it.	-3	-4	-5
23	I have more important problems than floods.	-2	-2	-5
24	I am interested in learning more about the floods.	-1	-3	-1
	Politicians should be more involved with the needs of people concerning			
36	floods.	3	0	3
40	I have been in contact with people responsible, concerning protection	1	1	
40	measures.	-1	-1	-4
41	I talk to my neighbours about their flood experience.	4	0	-1
42	I can rely on the help of my neighbours in case of a flood event.	4	1	2
43	I think there is a lack of communication between experts and residents.	2	-2	-1
46	I don't see the need to implement measures at my house, as my neighbours aren't either.	-4	-4	-5
		-4	-4	
50	I am responsible for my own protection against flood hazards. Ranked lower in Factor 1 than in other factors	3	T	0
1	I know where to find information about the flood risk of my property.	-2	3	2
3	If I don't live in a high risk area (red zone) there is no need to implement measures on my house.	-3	-2	-2
4	There is enough information available on floods.	-4	2	-1
	I have used temporary barriers (sand sacks, stop logs, etc.) in the past to	-4	2	-1
11	keep flood water entering my home.	2	2	4
	If the costs of different mitigation measures against floods would be more			
16	transparent, I would be more willing to implement measures.	-1	-1	1
20	The view and access to a waterbody is more important to me than a protective wall.	-4	-1	-4
22	Natural hazards are beyond my personal abilities to act.	-3	-1	-1
25	I am worried about the effects of climate change in my community.	0	2	3
2	I believe the damages caused by floods have risen in my community over	0	2	5
26	the last decade.	1	1	3
27	Flood catastrophes are man-made.	0	0	4
29	Weather forecasts are very useful for determining upcoming flood events.	1	3	1

	I use the hazard zone maps provided by the government to evaluate my			
30	flood risk.	-2	0	2
	Current safety measures implemented by the government in this	_		
32	community provide sufficient protection.	-4	-2	0
38	Personal information given by an expert about flood risks is reliable.	-1	0	4
39	I want to get information about floods through a website.	-1	0	0
44	My neighbours have had damages by floods.	3	4	4
47	I want to know if my property is at risk of floods.	0	1	2
48	A guide on possible protective measures would be helpful.	1	1	5
	Neither higher nor lower in Factor 1 than in other factors	-		
	I know the distance to the next water body, which could be at risk of			
5	overflowing.	2	4	1
6	Flood probabilities in Austria are difficult to understand.	0	-5	1
8	I know where to get protection measures for my house.	0	3	-3
9	I know how to implement protection measures on my house.	1	5	-3
12	There are no protective measures which I can implement on my house.	-2	-2	-2
13	Private protection measures are too expensive.	0	-5	1
14	I know which materials were used to build my house.	4	5	3
21	The effects of flood are uncontrollable.	-1	-1	-1
34	The government should take care of the flood risk.	2	0	5
	I am willing to pay for expert advice on flood protection measures on my			
37	home.	1	2	-2
45	My neighbours have implemented protective measures.	1	-1	2
49	I can properly prepare my house for a possible flood event.	0	2	-2
