Figure S2

The figure shows flow cytometry histograms comparing control, anti-CD8, and anti-CD4 treatments. The percentages in each quadrant indicate the proportion of CD4+ and CD8+ cells in each group.

- **Control**:
  - CD4+ cells: 75.2±0.7%
  - CD8+ cells: 10.6±0.5%
- **Anti-CD8**:
  - CD4+ cells: 84.3±0.6%
  - CD8+ cells: 0.1±0.1%
- **Anti-CD4**:
  - CD4+ cells: 86.7±0.6%
  - CD8+ cells: 13.1±0.4%
