

CORRECTION

Correction: Discovery of a Novel Human Pegivirus in Blood Associated with Hepatitis C Virus Co-Infection

The *PLOS Pathogens* Staff

There is an error in [Table 3](#). The columns to the right of the HIV heading are missing. Please see the full version of the table here, which includes the Peptide reactivity (S/CO = 15), HPgV-2 Viral load, and NGS coverage columns.

Abbreviations: NA, not applicable; NT, not tested.

*These two samples are from the same individual with bleed dates 26 days apart (sample ABT0030P.US is the earlier sample).

**These two samples are from the same individual with bleed dates 60 days apart (sample ABT0035P.US is the earlier sample).

[†]Italicized numbers show elevated signals, but below the cutoff value.
