

CORRECTION

Correction: Simulating Free-Roaming Cat Population Management Options in Open Demographic Environments

The PLOS ONE Staff

There is an error in the third sentence of the Abstract. The definition of TR should be trap-remove, not trap-return. The complete, correct sentence is: Previous analyses that use simulation modeling tools to evaluate alternative management methods have focused on relative efficacy of removal (or trap-remove, TR), typically involving euthanasia, and sterilization (or trap-neuter-return, TNR) in demographically isolated populations.
